ANNOUNCEMENT.

We are authorized to announce that Odell as a candidate has been nominated to represent Bourbon county in the next House of Representatives, subject to the action of the Democratic party.

Court Of Appeals.

We are authorized to announce Judge T. F. Harris as a candidate for re-election to the Appellate bench, subject to the action of the Democracy of the District.

"MAN born of woman, is of few days," and is always besieged with candidates.

BOSTON stone masons have determined to demand \$4 a day after the 1st of May.

SULLIVAN has decided to box the stuffin' out of Slade at the earliest opportunity.

THE Illinois house has passed a bill, authorizing the use of the whipping post in punishing wife-beaters.

INDIANS are fast becoming civilized. One killed a white man over a game of seven-up, in the Territory, the other day.

FRANK HATTON, Charles Foster, Chauncey L. Filey and John C. New are mentioned as successors to Postmaster General Howe.

An entire family, consisting of six persons, whose home at Helena, Ark., was inundated during the flood, have died of pneumonia.

GLEN BUCKNER will be the dark horses at the Louisville convention, and in case that Jones and Owlsley combine to beat Knott, they, too, will get badly left.

The new two cent postage stamp will bear a profile of Geo. Washington. This is the same gentleman who was at one time president of the United States.

It will be true that three of the favorite candidates for Governor are all ahead, then the prospect is that some other man who is behind, will be nominated.

GOV. CRITTENDEN, of Missouri, is in Louisville, and in an interview concerning Col. Frank James, said that if the Col. was convicted in his trial in May, no pardon would be issued.

When the police took Fugate in the Recorder's court at Lexington Wednesday, he jested about "where's the Ballance?" The policeman soon formed; "the'st, and 'sot, and yelled out "Ballance all!"

THE Grayson News pitched into the Richmond "Herald" for saying that the Carter county girls wore brass buttons on their garters, and retorts by saying that "none of the negro girls are wearing them."

We may now expect that a good many politicians who have said hard things about Mr. Tilden, supposing him to be dead as a mackerel, will make haste to explain that they spoke in a Pickwickian sense.

WIGGINS has ventured the prediction that the streets of New York will be flooded and under water from a tidal wave under certain conditions of the planets, but it is to happen two thousand years hence.

The bill to suppress political assassinations on officeholders, or on candidates for office, has been defeated in the New York State Senate. The bills for the suppression of rascality are nearly always disagreeable to American Statesmen.

A COMMITTEE of citizens waited on N. L. Dukes, the Northern seducer and assassin, at Uniontown Pa., presented him with the resolutions recently adopted by the indignation meeting, and gave him twenty-four hours to arrange his business and leave the city.

A BILL has passed the Tennessee Legislature pensioning ex-Confederate soldiers who lost both eyes in the service of the Lost Cause, in the sum of \$10 per month. A similar law exists in the State of Texas where each disabled Confederate soldier has been given 160 acres of land. We are of the opinion that every living ex-soldier of both armies ought to be pensioned, and that every man who joins any army in the future ought to be shot and then hanged up for crow bait.

JUDGE JACKSON, of Louisville, is a man of good sense, and ought to run a newspaper so that a great many citizens could absorb his ideas. He says that he is not in favor of excluding intelligence from a jury, simply because a man has read a newspaper. He's exactly right. It is only the hireling lawyer who objects to intelligence when he has a guilty client to defend. When his client is innocent, he never objects to intelligence, or the fact that a man has read newspapers.

A BILL has passed both houses of the Tennessee Legislature allowing pools to be sold on all races but conferring that privilege to blood-horse associations and fairs. It prohibits selling to minors or intemperate persons. The law has heretofore forbidden the selling of pools on any races run outside of the State.

In no way can disease be so surely prevented as by keeping the system in perfect condition. Brown's Iron Bittters ensures perfect health through the changing seasons; it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

Sale at 9 o'clock a.m., sharp.

JEFF. M. VIMONT, Adm'r.

ATTENTION, HORSEMEN!

We call the attention of the farmers and breeders of horse stock, that I breed at my place, horses for breeding, symmetry as well as for trotting purposes. If a careful inspection is due to the sire and offspring of any horse, I would then make arrangements to show Caliban and his offspring—some ten or twelve of which can now be seen at my stable. Caliban will be permitted to serve a limited number of mares the coming season, offered at first-class rates (no others need apply), at \$25 to insure.

Caliban has a record of 234, and in the opinion of the best judges as Dr. Heron, he has trotted as fast, or better than 2:30 on the day which he recorded. Two of Caliban's yearlings colts showed better than a full minute gain on my different track last spring.

I will call the attention to the fact that Mambrino Chie, with the Pilot and Clay cross, has produced some of our most noted trotters. I breed for speed as well as sixteen-hands high horses, high style and range.

Caliban is the sire of Cyclone and Cossack, both with records better than 2:27.
